Welcome to Automechanika, the world's most successful automotive trade show

With over 550 domestic and international exhibitors attending at the NEC, Automechanika Birmingham guarantees visitors unrivalled access to the very latest products and services available to the automotive sector, as well as an insight into its future.

As a visitor, you will benefit from a comprehensive seminar programme that will address key issues and developments including the changing car market, advanced IT and vehicle connectivity, future drives, staff skills, training and business best practice.

Join thousands of market-leading companies from across the automotive sector as the very best of the aftermarket and supply chain come together to celebrate and support the buoyant UK industry.

Analysts predict that the UK will be producing more than 2 million vehicles per year by 2020

The largest number of exhibitors at an Automechanika launch event outside of Frankfurt

"This is a great opportunity for our UK automotive suppliers and buyers to participate in the largest automotive focused event in the UK, the like of which we haven't seen in the UK for many years. We look forward to celebrating and building upon this success with our current suppliers and meeting new suppliers at Automechanika Birmingham this year."

Jaguar Land Rover

Key reasons to attend

- » **Visit** more than 550 domestic and international exhibitors by meeting new and existing suppliers as well as sourcing the very latest automotive products and services available to your business
- » **Discover** state-of-the-art innovations from the UK's most forward thinking technology companies
- » **Learn** about the very latest trends and developments from across the industry in the Keynote Seminar Theatre and Technical Theatres
- » **Network** with fellow automotive professionals, forge long-lasting business relationships and exchange ideas on the future and the potential challenges ahead
- » **Enhance** your technical knowledge and skills by attending sessions in the aftermarket and supply chain seminar theatres

Automechanika Birmingham The numbers:

550 exhibitors
from 30 countries

1,000s of products
and services on
display, from over
150 product categories

50 free seminar
sessions

The UK car
population is the third
highest in Europe with
37 million registered
vehicles

"It is fantastic that Automechanika will be in the UK, in Birmingham. As Halfords Autocentres is a full service garage group looking after over 1 million private and fleet vehicles, there is a lot we are looking forward to. Not least the opportunity to spend time with so many of our suppliers and supporting businesses – we hope to meet old friends, and new."

Halfords

halfords

Over 550 exhibitors across 3 halls

Exhibitor categories:

- » **Parts & Components**
- » **Electronics & Systems**
- » **Repair & Maintenance**
- » **Accessories & Customisation**
- » **Car Wash, Care & Reconditioning**

Origin of exhibitors

Supporting you to future-proof your business

There will be an extensive seminar programme across three theatres with presentations addressing the latest developments from leading experts such as **SMMT**, **Automotive Council**, the **IMI**, **Frost & Sullivan**, **UKTI/AIO**, the **MOT** and **Motor Codes**.

SMMT will be hosting their series of events – Meet the Buyer, Open Forum, Logistics Forum and Aftermarket Forum

Find out more at www.smmt.co.uk

Keynote presentations

A series of presentations, case studies and panel discussions to highlight major developments and issues that will impact the automotive sector in the UK. Topics will address:

- » The changing car market & industry forecasts – understanding global trends affecting the industry
- » Connectivity & advanced IT in vehicles
- » Skills, apprenticeships & training in the industry
- » Future drives
- » Securing business success (legislation, role of government, trade & export)

Aftermarket technical seminars

A programme of technical seminars and educational sessions covering topical issues and developments for the UK's aftermarket sector. Topics will include:

- » Updates on the MOT, qualifications & certification
- » The growth of hybrid & electric vehicles & emerging skills gaps
- » The changing car parc & keeping workshops up to date with both current & future vehicles
- » Technology & the retail sector
- » Business seminars for workshop managers (managing distribution, insurance, warranties)
- » **AND ANNOUNCING** a series of Technical Workshops in association with autotechnician magazine, sponsored by TecRMI, with speakers including Frank Massey, Neil Pattemore, James Dillon & Peter Coombes

Register your attendance for key updates on the seminar programme in the coming weeks

autotechnician

Supply chain technical seminars

A series of technical seminars and educational sessions to address the specific needs of the UK supply chain sector. Topics will address:

- » High-value manufacturing
- » Lightweight technologies, metals & composites
- » Future drives: e-mobility, battery technology, e-fuelling & alternative drives
- » Low carbon systems & electrification
- » Business seminars for the supply chain (intellectual property, business funding, accreditation)

Workshop of the Future

An interactive showcase of the latest technologies impacting the industry and evolving the knowledge and skills required to future-proof your business.

Test your knowledge on key areas such as vehicle electrification, battery technologies, connected systems and vehicle diagnostics, plus experience first-hand the future of 3D and augmented training technologies, all to ensure you understand how to maintain your competitiveness in a quickly evolving marketplace.

Bringing the industry together

Thousands of industry peers attending from the whole spectrum of supply chain and aftermarket.

Did you know that the average British built car now contains 41% local content compared to just 36% in 2011?

Supply chain

Senior decision makers across purchasing, product development, R&D, sales and marketing, engineering, HR and logistics.

- » Vehicle manufacturers
- » Tier 1 manufacturers
- » Tier 2 manufacturers
- » Upstream manufacturers

Aftermarket

Business owners, senior managers and technicians across all areas of the aftermarket.

- » Motor factors/distributors of vehicle parts & accessories
- » Workshop/MOT centres
- » Retailers
- » Fleet operators
- » Breakdown recovery services
- » Workshop tool & equipment suppliers
- » Vehicle leasing companies
- » Vehicle preparation & valeting
- » Vehicle cleaning operations
- » Dealerships
- » Vehicle restoration companies

"The arrival of Automechanika in Birmingham has created a huge buzz of excitement across the whole of the aftermarket and it's no surprise it's a sell-out. It's a fantastic showcase for the industry; one that will provide an excellent opportunity for all those exhibiting to welcome valued customers and key supply partners, while also forging new friendships. As one of the leading autoparts distributors in the UK we just had to be there."

"Nissan fully supports the arrival of Automechanika Birmingham in June 2016 – an event dedicated to showcasing the UK's automotive capabilities. With the recent announcement of the next generation Nissan Juke, this will be a good opportunity to discuss potential new partnerships and reinforce existing relationships."

Nissan
