

Easiflow™

HD LITE 310ml

A single component manual bead applicator for cartridges

Built in cartridge support strap. This makes the cartridge insertion easier and quicker. And reduces the risk of the cartridge dropping out of the tool during use.

Built in pressure relief device (PRD) that stops material flow when the trigger is released.

Hexagonal rod design for an increased contact area with catch plate, reduces long term rod wear.

Glass fibre reinforced plastic that increases rigidity and toughness.

PRODUCT FEATURES:

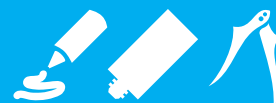

- Plastic butt & frame for light weight.
- Glass fibre reinforced plastic that increases rigidity and toughness.
- Robust Catchplate design to maintain a high level of material output, for the life of the tool.
- Plated metal components for improved corrosion resistance.
- Built in pressure relief device (PRD) that stops material flow when trigger is released.
- Hexagonal rod design for an increased contact area with catch plate, reduces long term rod wear.
- Curved rod end (ladder hook) for convenient tool storage.
- Built in Cartridge support strap. This makes the cartridge insertion easier and quicker and reduces the risk of the cartridge dropping out of the tool during use.
- Warm to the touch as made of high quality, reinforced nylon.
- Excellent value for money.

The Cox Easiflow HD is part of a range of manual applicators. Designed for use with low viscosity sealants and adhesives, the Cox Easiflow HD is ideal for DIY and semi-professional users.
