

9059 – A.G. Europur Mod. 3

One component PU Foam Gun

Professional model of PU foam gun, ideal for all types of propellant gas. Provided with universal lightweight standard brass adapter suitable for all extrudable foam cans. Galvanized brass flow control screw. Very solid brass body with triple carbographe gasket inside, for better cleaning and durability, and ergonomic handle. Brass needle and stainless steel adapter valve. One-piece tube galvanized brass tube polished inside, for less dispensing friction. Removable for maintenance.

Non-drip dispensing. Includes plastic straws.
